Style	Size	Qty	Colour to be dyed	Standard (14 working days)	Express (7-10 working days from receipt)

Please ensure you are aware of the following before proceeding with dyeing of your bridal shoes. The greatest care is always taken when mixing dyes to accurately match your chosen colour but please be aware that we cannot always achieve a 100% colour match.

If a shot silk swatch is provided we will mix the dye to the middle shade as it is impossible to mimic a two tone effect. The dye will be mixed in natural light conditions. The colour will vary if viewed under electric/natural light.

The fabric and original colour of the shoes will also affect the outcome of the dye. Ivory is the preferred colour to dye in most cases.

Elastic and straps may vary in colour from the main body of the shoe once dyed. Trims, beading, edgings, stitching, chiffons and pleats may cause the dye to dry a slightly paler or darker shade.

Silk is a natural fabric, the weave can sometimes cause some colour variations to appear due to the slub within the material. This is not a defect, merely the nature of a natural fibre.

A minimal glue residue is unfortunately unavoidable around the sole and other seams. The dye will not penetrate the glue residue.

Dyed shoes and bags are not colourfast. If the shoes are likely to be worn in wet weather, we recommend a waterproof protector spray be used. Please note that the use of a waterproofing spray may prevent the shoes from being dyed again successfully.

If shoes have previously been dyed, they can only be dyed again to a darker shade. The application of a further coat of dye could cause the fabric to become patchy. Pre-worn shoes can be dyed however this will not cover stains and scuffs.

To ensure consistency, all shoes for one wedding party should be dyed at once and preferably of the same fabric. The above conditions apply to the dyeing of Benjamin Adams, Belle and Pink by Paradox shoes and handbags.

Should any of the above occur,
Girls Of Elegance and Paradox London cannot be held responsible.
